# 1. Mapowanie zasobów usług katalogowych

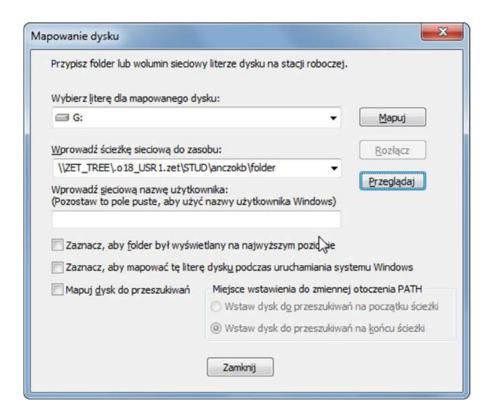

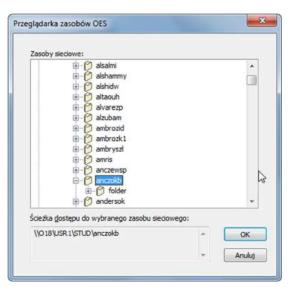

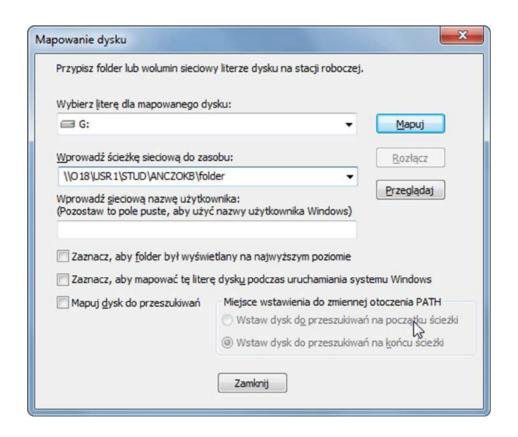

Mapowanie można zrobić za pomocą adresu obiektu bazy:

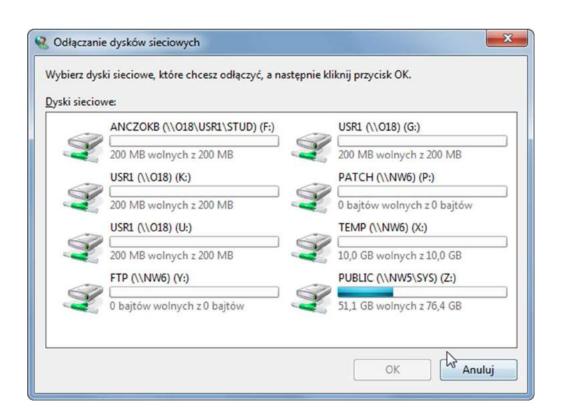

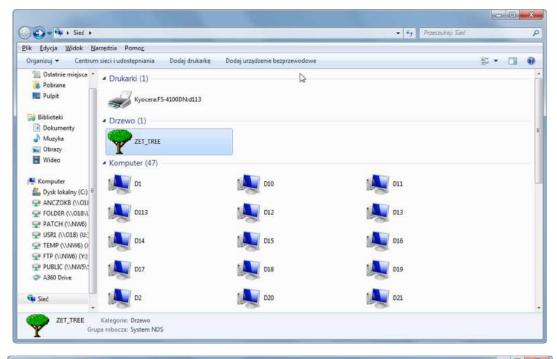

#### Oraz za pomocą adresu serwera:

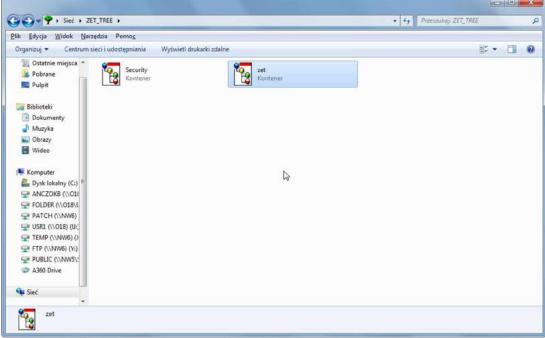

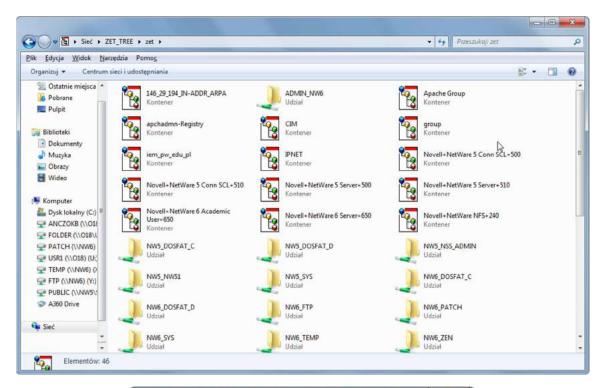

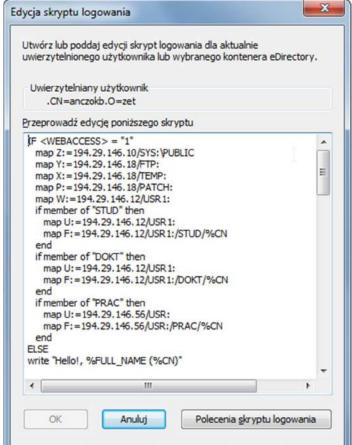

# 2. Katalogi sieciowe

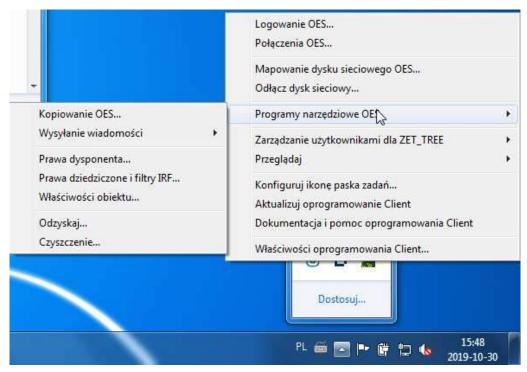

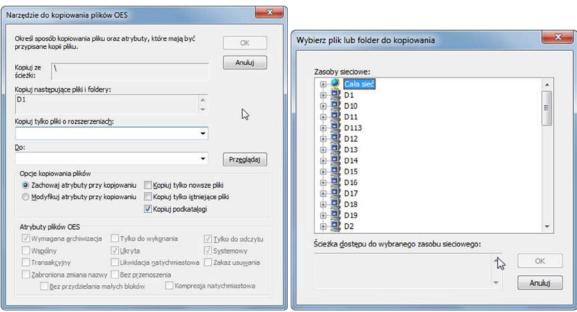

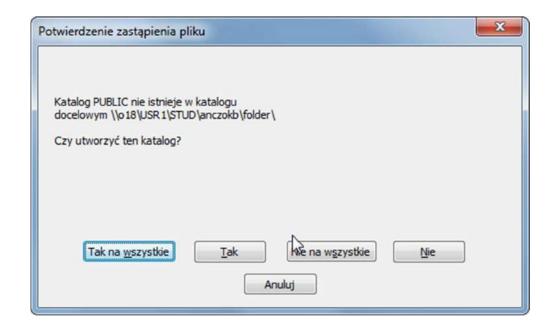

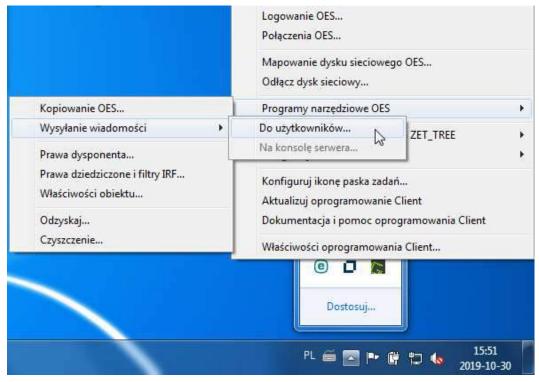

#### 3. Kopiowanie NetWare

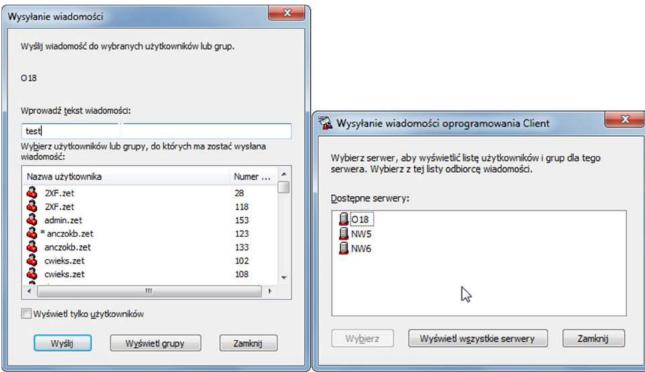

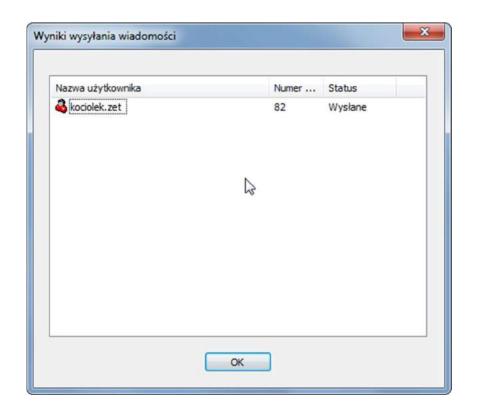

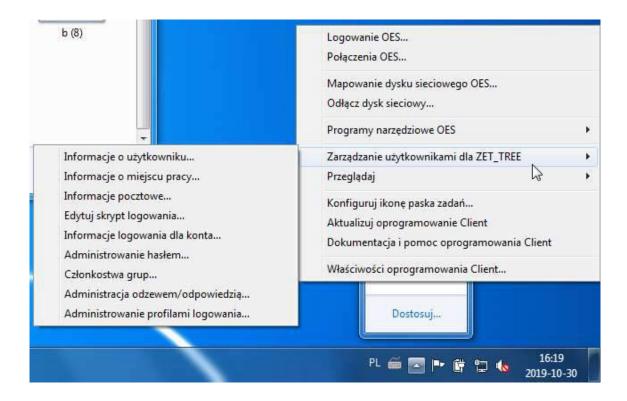

#### 4.Komunikaty

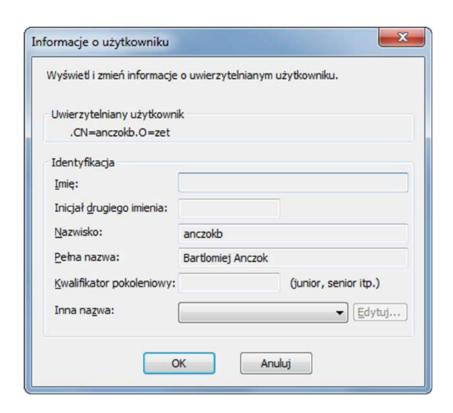

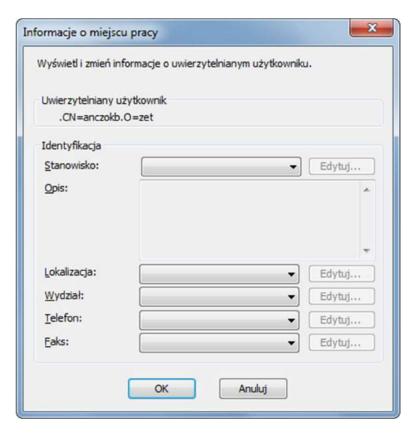

# 5. Baza danych i informacje w niej przechowywane

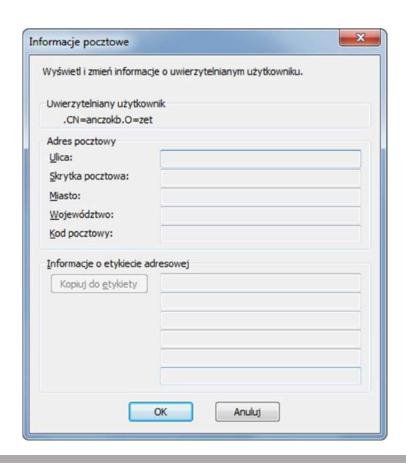

#### 5.1. O użytkowniku

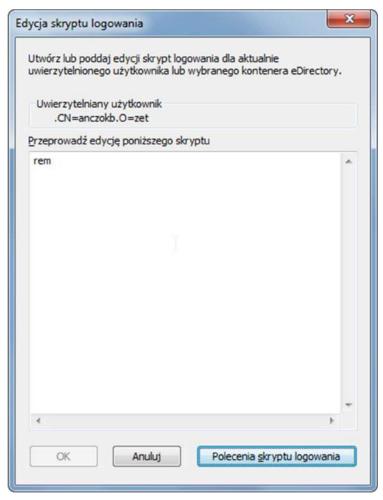

#### 5.2. O miejscu pracy

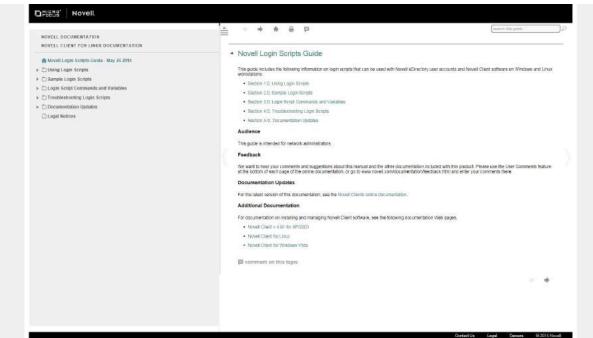

#### 5.3. O informacjach pocztowych

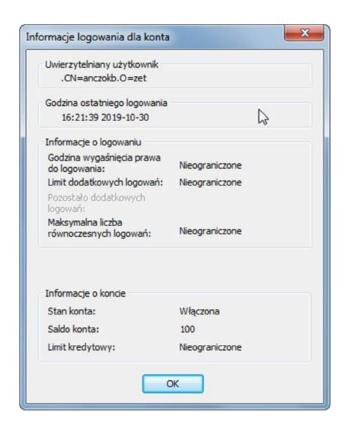

#### 5.4. O skrypcie logowania

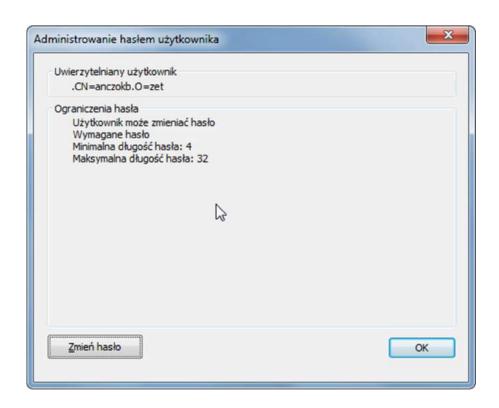

#### 5.5. O ograniczeniach/restrykcjach konta

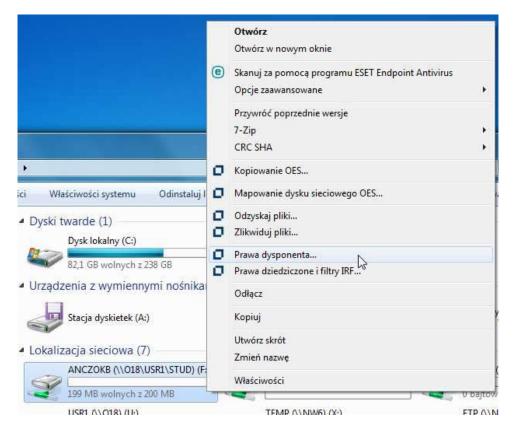

#### 5.6. O restrykcjach haseł

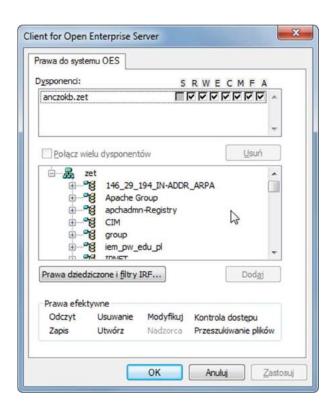

# 5.7. O przynależności do grup

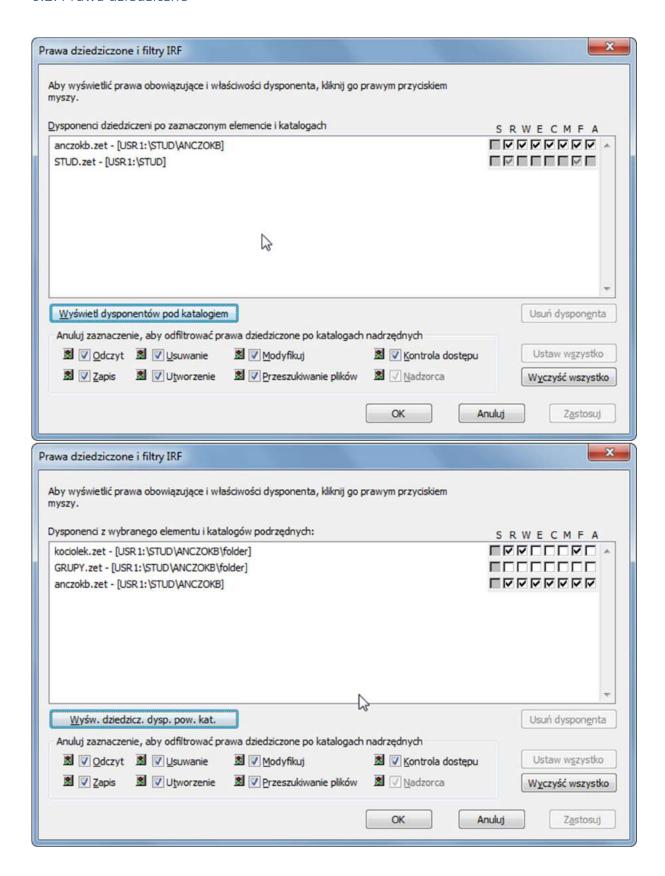

#### 6.Prawa w zasobach sieciowych

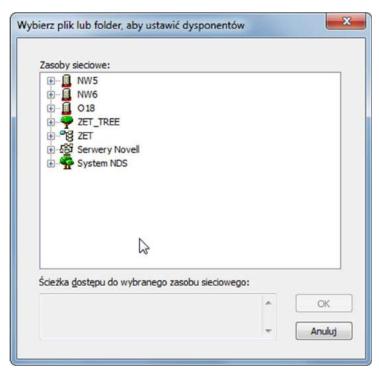

#### 6.1. Prawa bezpośrednie

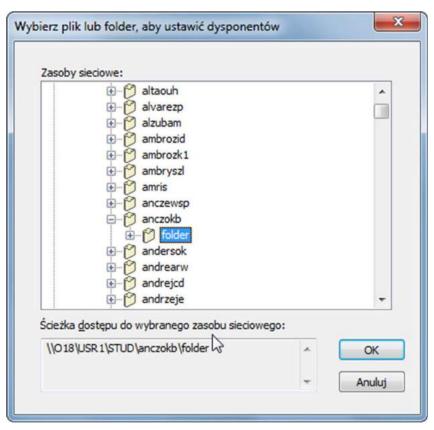

#### 6.2. Prawa dziedziczne

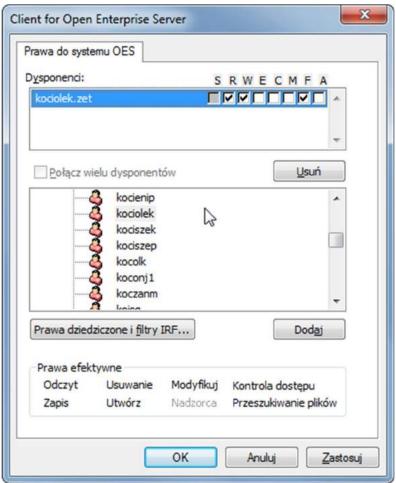

# 7. Nadawnie praw

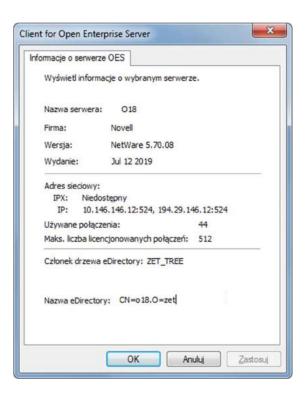

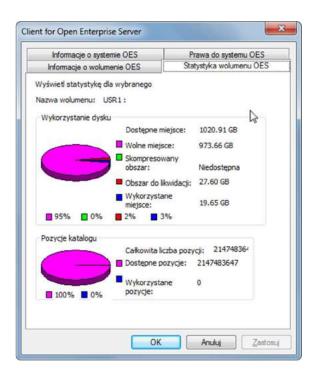

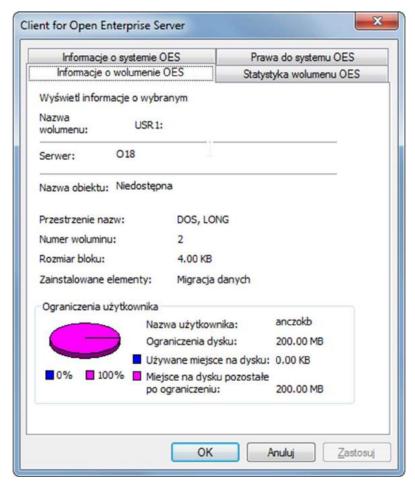

#### 8. Właściowości

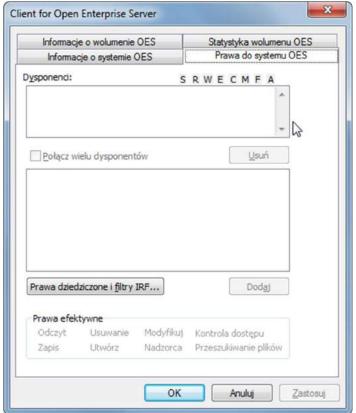

#### 8.1. Serwera

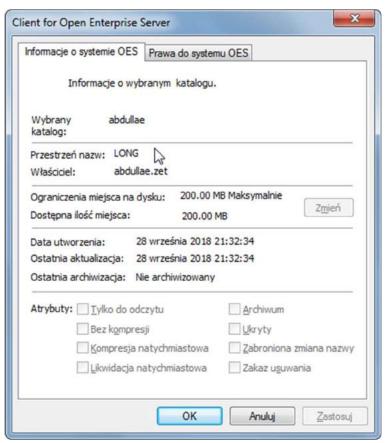

#### 8.2. Volumenu sieciowego

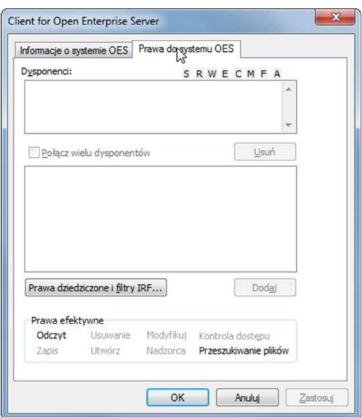

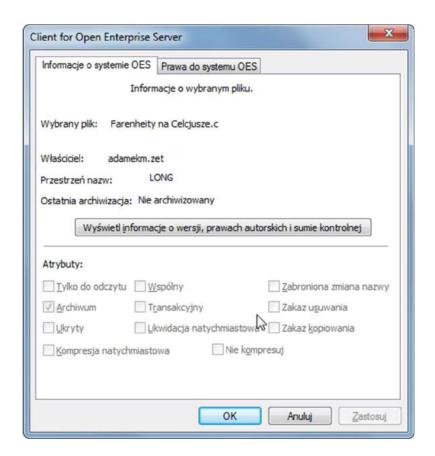

#### 8.3. Katalogu sieciowego

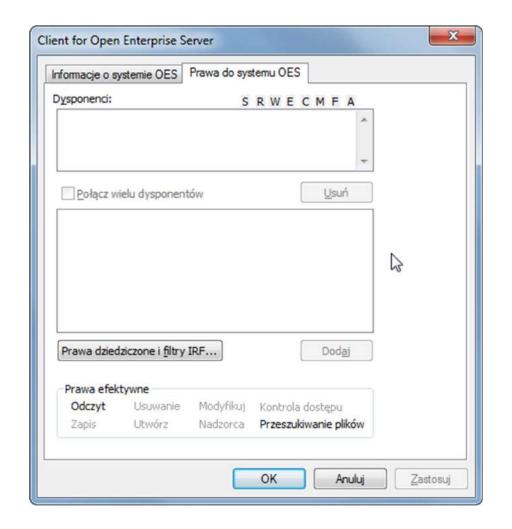

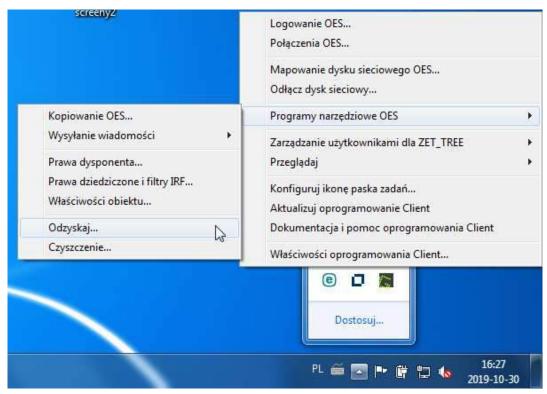

#### 8.4.Pliku w zasobach sieciowych

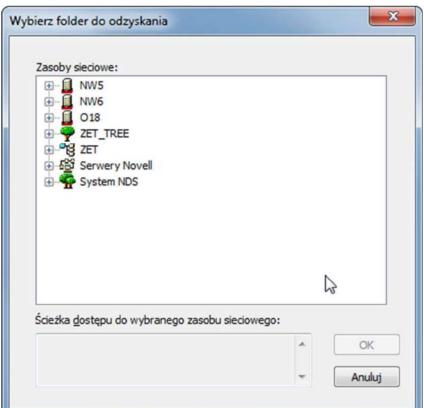

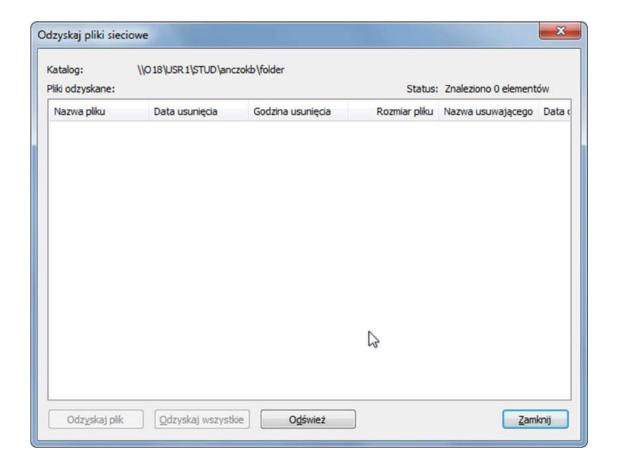

# 9. Odzyskiwanie usuniętych plików

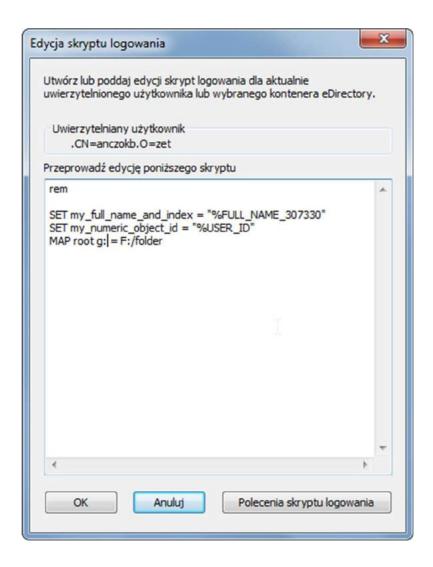

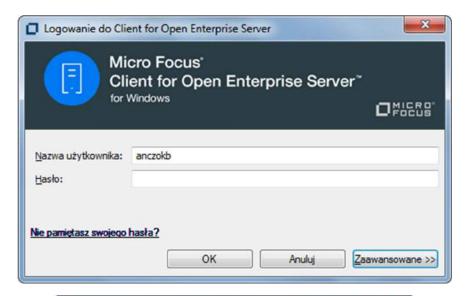

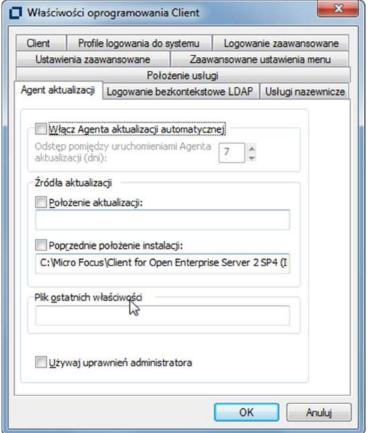

Niestety, nie wiedząc czemu, mechanizm odzyskiwania nie pokazywał mi usuniętych wcześniej plików

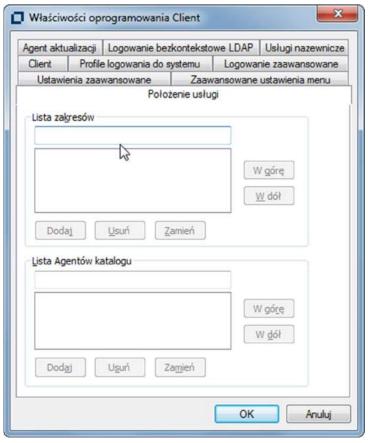

# 10.Login script

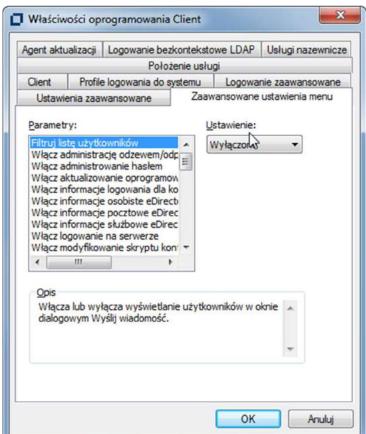

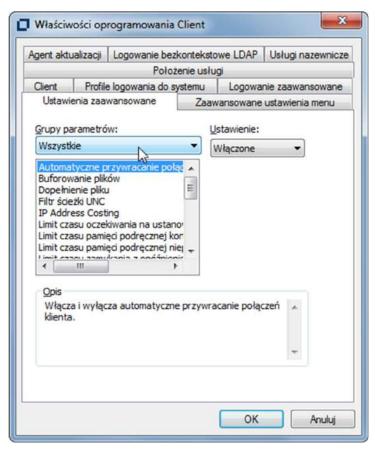

# 11. Profil logowania

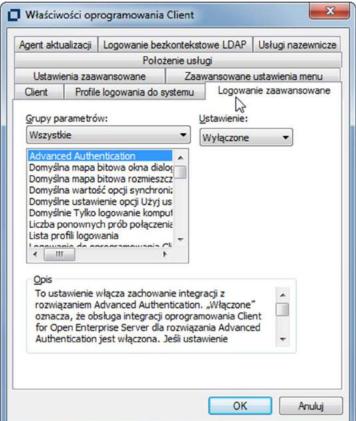

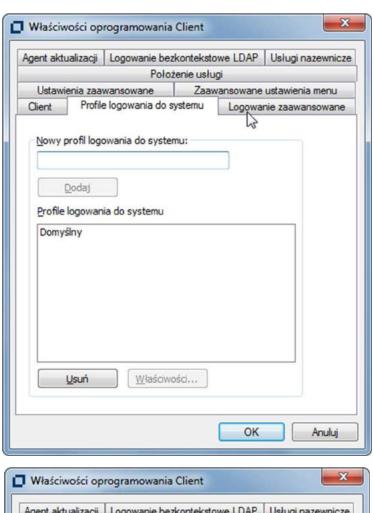

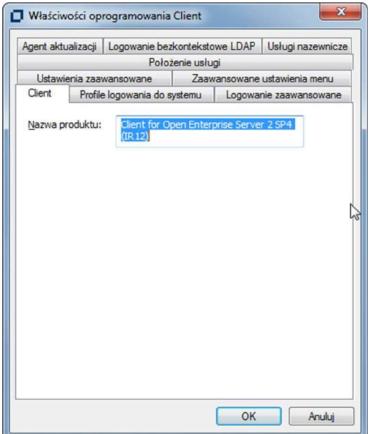

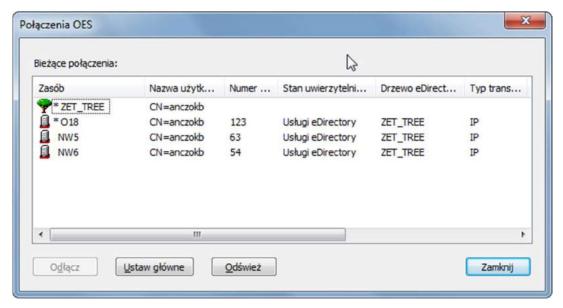

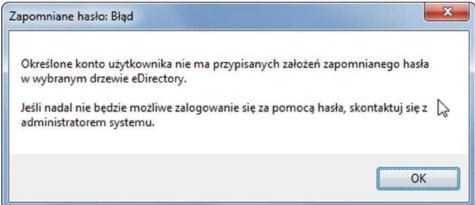

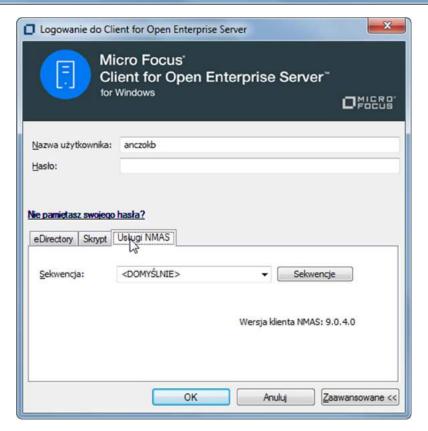

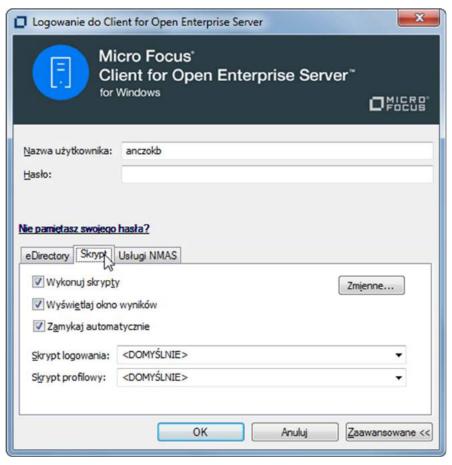

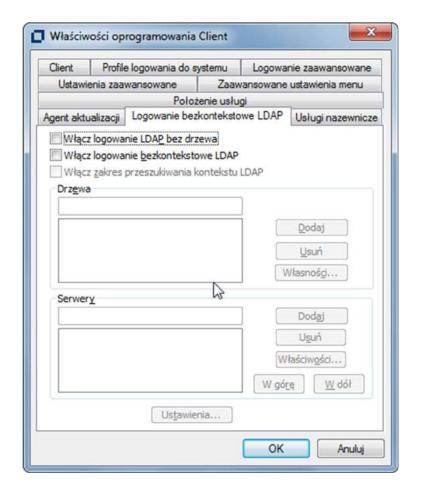

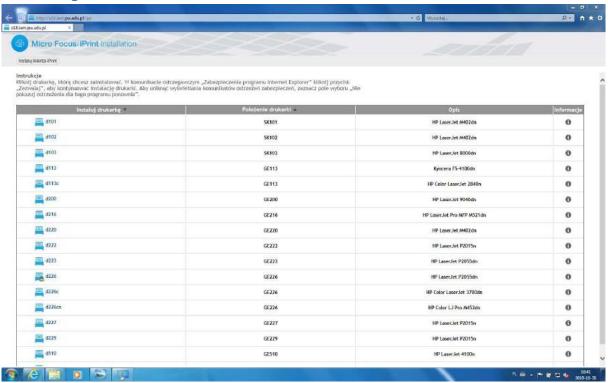

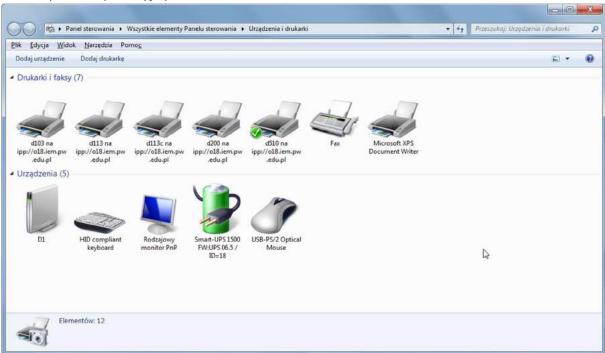

# 12.Drukarki

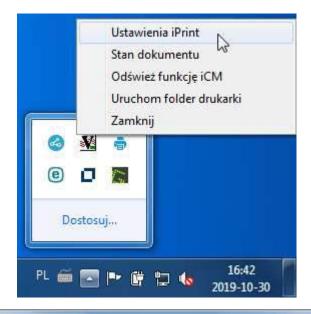

# 12.1. Usługa Micro Focus iPrint

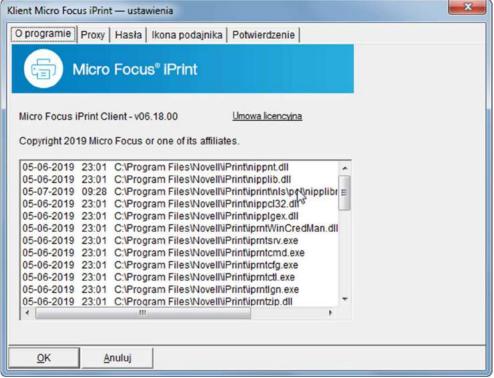

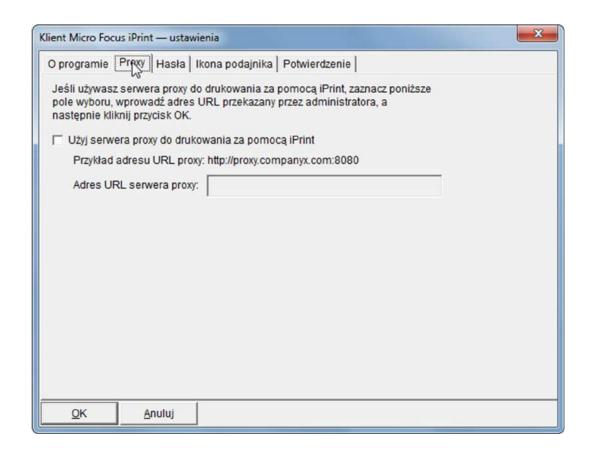

## 12.2. System operacyjny

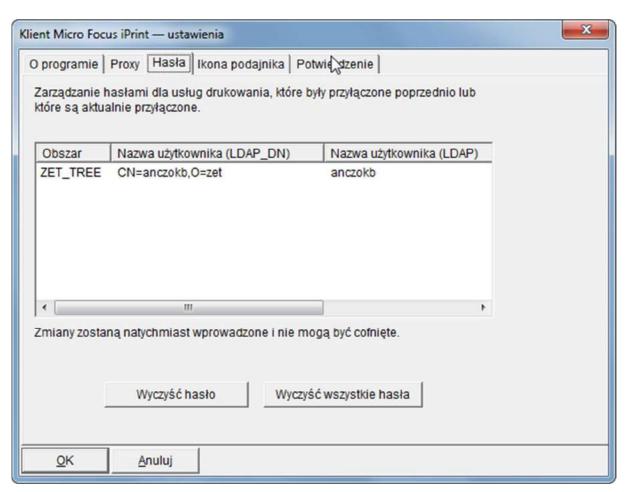

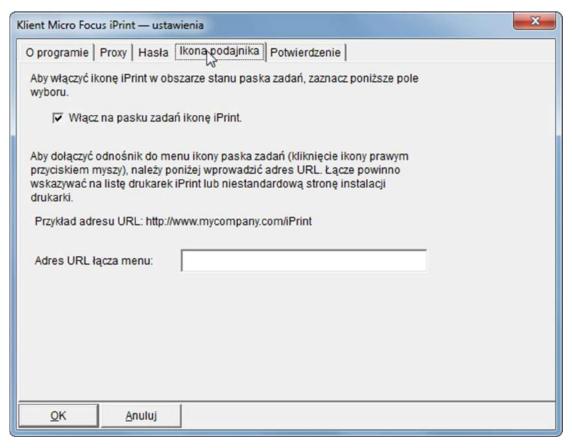

# 13. Usługa drukowania Micro Focus iPrint

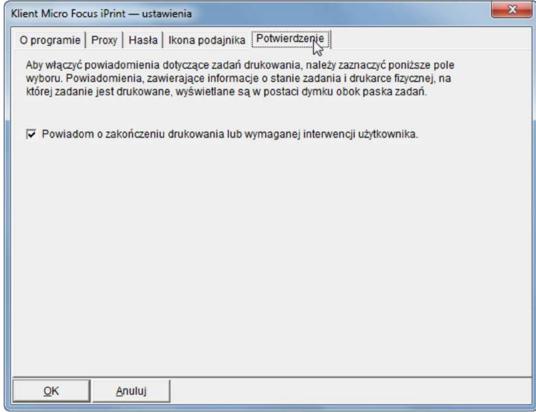

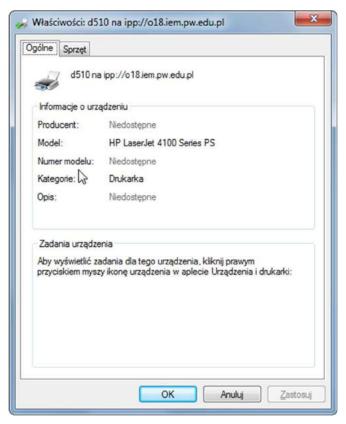

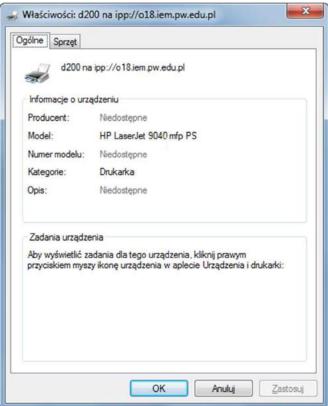

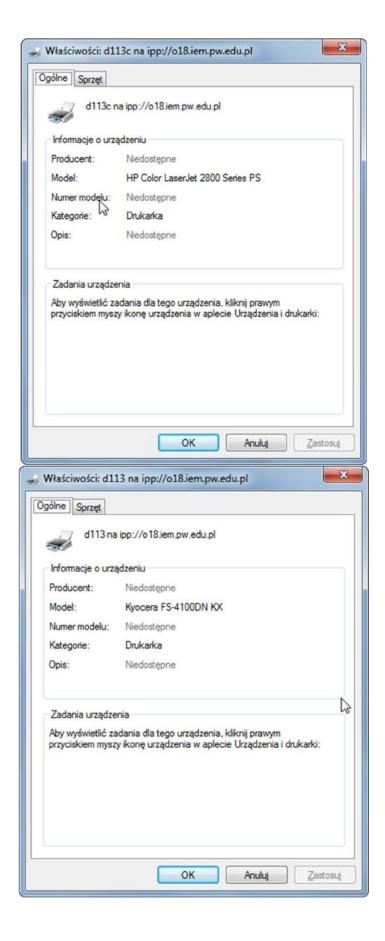

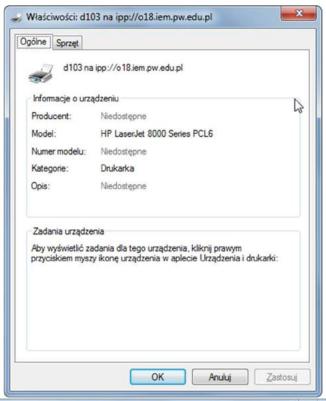

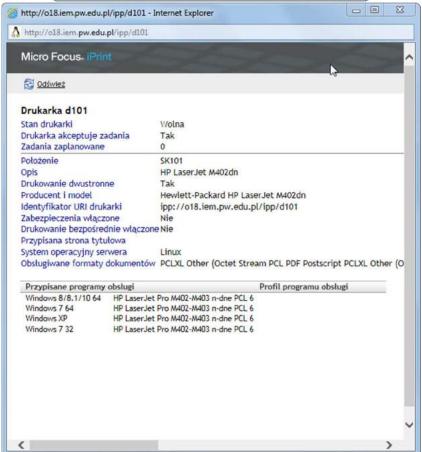

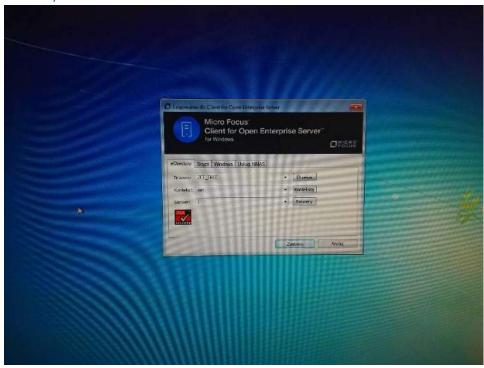

# 14.Czas logowania

# 14.1. Brak nazwy serwera

Przy braku nazwy serwera po 42s wyskoczył błąd.

## 14.2. Błędna nazwa serwera

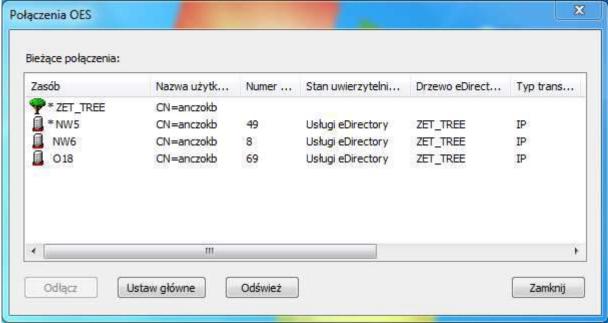

Przy błędnej nazwie serwera po 19s błąd

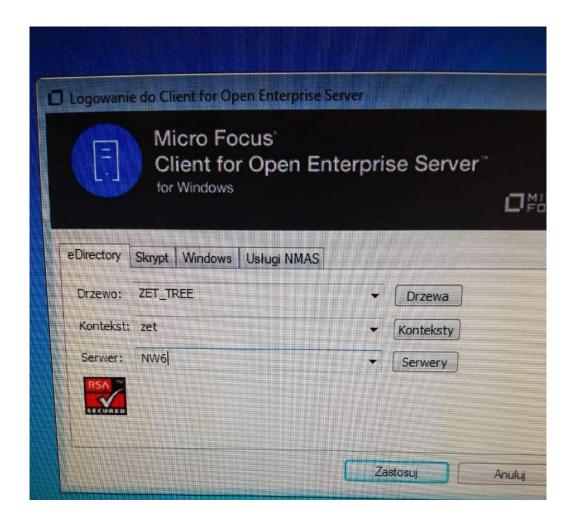

# 14.3. Użycie nazw symbolicznych

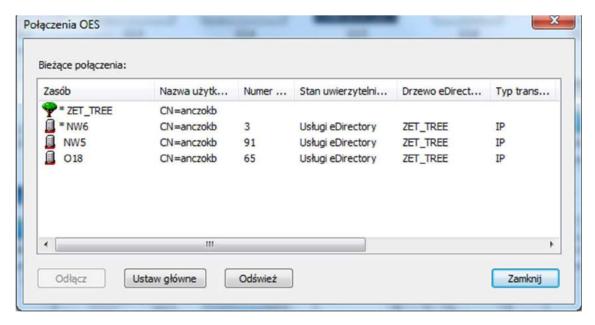

#### 14.3.1. NW5

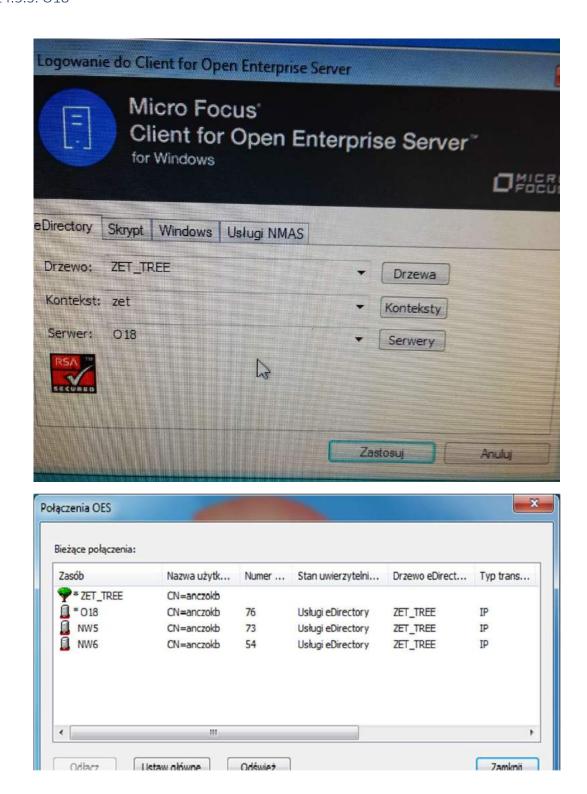

Czas logowania: 24s.

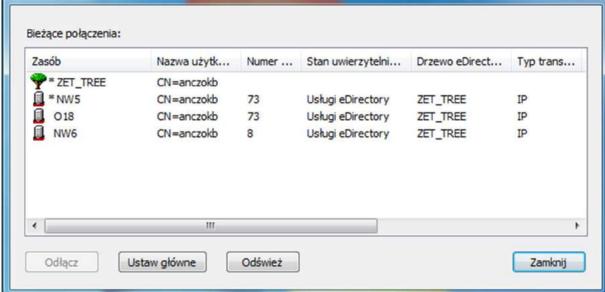

Czas logowania: 24s.

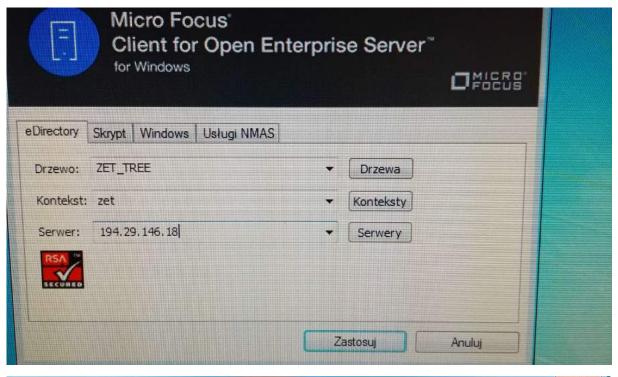

Czas autoryzacji: 2s, podłączenia zasobów: 8s, dostarczenie środowiska: 14s

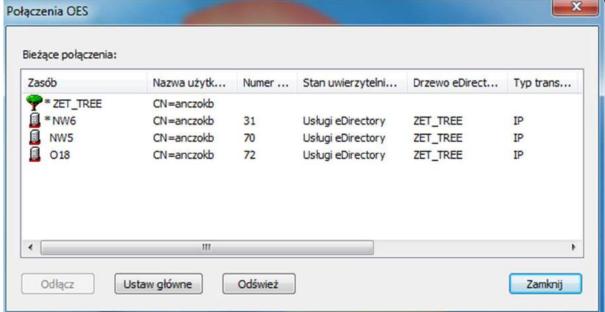

# 14.4. Adresy IP 14.4.1 194.23.146.10

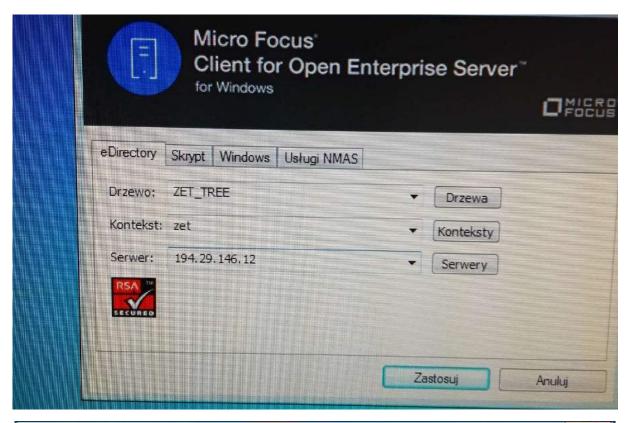

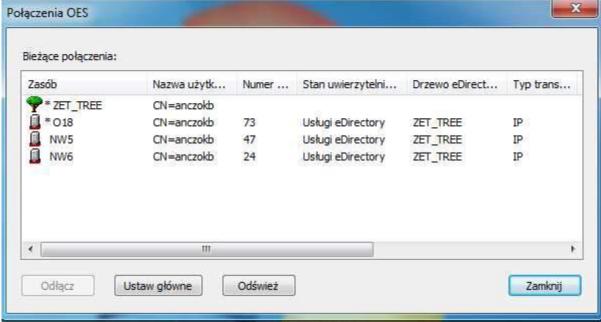

Czas autoryzacji: 6s, podłączenia zasobów: 8s, dostarczenie środowiska: 5s

Czas autoryzacji: 7s, podłączenia zasobów: 11s, dostarczenie środowiska: 4s

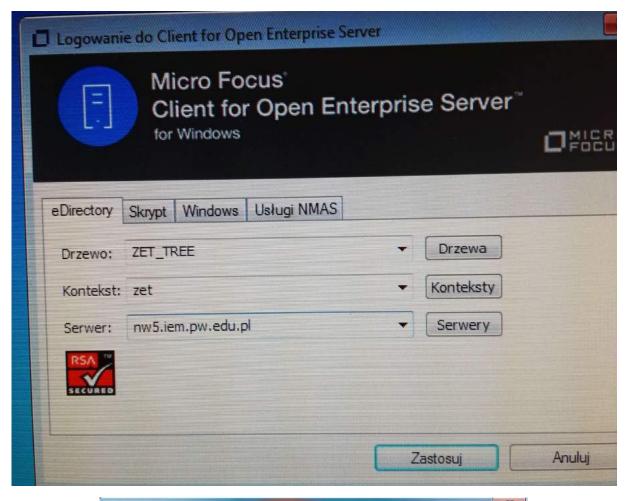

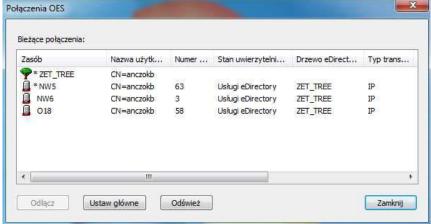

Czas autoryzacji: 2s, podłączenia zasobów: 11s, dostarczenie środowiska: 3s

## 14.5. Nazwy DNS

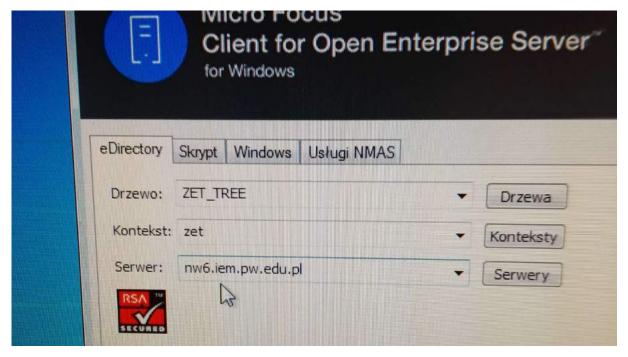

#### 14.5.1 nw5.iem.pw.edu.pl

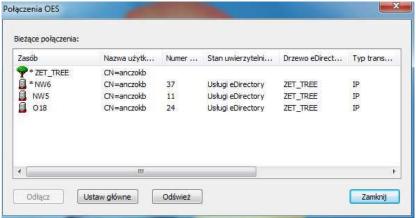

Czas autoryzacji: 10s, podłączenia zasobów: 11s, dostarczenie środowiska: 4s

# 14.5.2 nw6.iem.pw.edu.pl

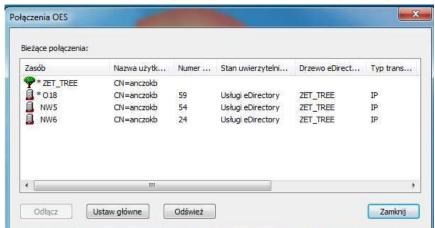

Czas autoryzacji: 9s, podłączenia zasobów: 11s, dostarczenie środowiska: 4s

## 14.5.3 o18.iem.pw.edu.pl

Czas autoryzacji: 3s, podłączenia zasobów: 12s, dostarczenie środowiska: 4s

# 15. Własna opinia

Moim zdaniem OES ma swoje plusy i minus. Największym plusem tego systemu są jego ogromne możliwości i duży stopień rozbudowy. Również dużym plusem jest możliwość odzyskiwania usuniętych plików. Według mnie, największym minusem w/w systemu jest jego mała intuicyjność, przez co może on sprawiać problemy osobom, które spotykają się z tym systemem po raz pierwszy.
